

The Plant Palace:

Have you ever wanted to grow plants but didn't know where to start?

Here's a one-stop shop for all things plant-related.

Our Website 'The Plant Palace' has:

- Garden: A personalized Garden where you just need to add the plants you want to grow and get all the information and tips.
- Connect: Connect with other plant parents and share your views and experiences.
- Explore: Find new plants and add them to your garden in the real world too.
- Products: Suggestions of all plant-related products from seeds, and pots, to fertilizers.

Set up:

Installation of npm and nodejs

Technologies used:

React and using javascript

Challenges faced:

1.setting up npm

2.Routing the home page,with other pages
